**Get tanned and enjoy the most spectacular beaches!**

**Pandawa Beach Kutuh Village**, South Kuta District, Badung Regency

When entering the area of Pandawa Beach, you will be made astonished by beautiful view in front of you. The sand in this beach is so white and clean which is combined with a background of turquoise sea. The ambience is still quiet, serene, and clean.

This beach is very suitable for swimming because the wave and current is not so strong.

**Balangan Beach** South of Uluwatu peninsula. There are beachside warungs and the homestay restaurants. The grains of sand here are perfectly spherical and the waters deep and crystal clear.

The beach gets a large rock shelf at low tide and isn't so good for swimming, but as high tide the swimming is fantastic - watch for the currents though!

Uluwatu Beach Blue Point Resort. The multiple surf breaks make this one of the most famous of Bali's waves, but with a multitude of bars and warungs built into the cliff, this is also the best for taking in the scene.

**Bingin Beach** South of Bali, in the Pecatu Village, Uluwatu, is a stunning beach with unrivalled views over the Indian Ocean. Walking along and exposed coral reef is a breathtaking experience. There are plenty of cafes right on the cliff where you can rest in shade sipping coconut water and relax.

**Nyang Nyang Beach** east of Bali's famous [Pura Luhur Uluwatu](#), is simply tremendous. it's a 15-minute walk down the 500+ steps that climb the Nyang Nyang escarpment. It's a coarse sand, and as the tide out when a swim would have involved being pummeled on the rocks, so I settle for a paddle in the rock pools.

Note you will need to bring your own food and water.

**Melasti Beach** is a beautiful beach located below a high cliff. Unspoiled blue sea, make this beach to be one of the best in the region Ungasan. High cliffs cleaved used as a road with many bends. From the top, the road looks beautiful with limestone cliffs.

**Nusa Dua Beaches** BaliClean, clear water beach, free from hustle and bustle. Great for swimming. Long Beach area nice for a stroll along. Plenty of sun beds on the beach for hire. Cafe serving a range of Balinese and international delights. Beach day packages are available in 5 stars resorts.
